About us

WHO ARE WE?

Healers. Teachers. Creators.

We are a community of like-minded and enthusiastic individuals super passionate about sustainability and co-creating with others.

We run workshops using edutainment tools. Education and Entertainment. Fun for kids and adults, too. Learn about sustainability and enjoy the process :)

We are also super keen on raising awareness of hemp, a God-given plant which is a blessing in so many ways.

Please get in touch if you would love to learn more about us. We are all ears and looking forward to hearing from you.

What is special about hempy workshops?

In hempy workshops we educate our participants (8-99 year olds) about the use of one plant in multiple ways to bring sustainability closer to their daily practices. Hence each workshop is linked to a product we already have and that we are happy to teach others of how to create it on their own.

ps. Workshops can be customized and conducted in any parts of the UAE in English and/or in Arabic.
