

Our mission is to make UAE plastic free!

**CHANGE[®]
THE WAY
YOU DRINK
WATER**

there is Waterclub!

There are
water filters
and...

We believe in something simple. Drinking more water makes you feel good and helps keep you healthy. It's why Waterclub gives you much more than you might expect from a water filter:

- Unlimited filtered and UV purified water
- Dispensed instantly, boiling or chilled at the touch of a button
- Removes bad stuff like Chlorine, Bacteria and stops scale

About us

Waterclub is a team of multi-cultural enthusiast individuals who are committed to preserving the planet and offering you an easier way to drink water.
By choosing Waterclub water filters, not only will you save money but also help protect our environment for future generations!

Our company culture

Our Mission (What do we do ?)

We provide top quality, cost-effective drinking water filters for home or office.

Our purpose (Why are we doing it)

We believe that pure drinking water should not be seen as a luxury. This means we want to help make sure everyone can access it, without harming our planet in the process.

Our values (what matters most to us?)

Waterclub is all about saving the planet and your wallet! We offer you a way to be environmentally friendly without sacrificing quality by using Waterclub water filters!

We value people

We are a company that believes in the power of people. We value our employees and work hard to create an environment where they can thrive, both professionally as well personally.

We value service

Client satisfaction is our priority and we aim to deliver a top-notch customer service from start (on time) through finish with proper dress code and hygiene standards in mind - all while having an awesome attitude.

We value learning

We all have a passion for learning and sharing that passion with others. We're constantly trying to be one-step ahead of new technology, which means our job is not just about working outside but also inside the company as well.

We value optimism

Life's not always easy, but we refuse to let the little challenges get in our way. When problems arise between us and our colleagues or clients they're solved with communication rather because that's what helps most people through tough times!

Our principles

Respect

We believe that as an organization, we think as one. We respect each other and our company's policy and promote a culture of teamwork by working hard together by putting the customer first and foremost in everything we do. We never take away what you need, but rather find a way to give it to you!

Honesty

Honesty is at the heart of everything we do. We take pride in being honest and upfront with our company, our customers, and each other. We always take responsibility for our mistakes because it's important for us to be able to learn from them so we can do better next time.

Team spirit

"WE" before me means we're all in this together. We are a family, and we always back each other up. We treat each other equally and communicate with our team members to make sure they have what's best for the company in mind.

Willingness

We are a company that has the willingness to learn and grow together. We know how to work together and can adjust in any situation with ease because of our strong character traits like patience!

Hard work

We are a team that gets things done. Whether it's our own tasks or those of others. We commit to it and take responsibility and accountability all the way through every step. We always do what we say and never make excuses.

Attitude

We are all about positivity, We never give up, even when things get rough; instead taking every negative situation as an opportunity to grow from the experience together. We work with heart & care to create a harmonious workplace culture.

PURITY

Filtered and UV purified to remove chemicals like chlorine but retain all water essential natural minerals like calcium. Waterclub brings you the perfect PH water for your body

TASTE

Impurities & chlorine free

CONVENIENCE

Both boiling hot or chilled at the touch of a button whenever you want it

SMART

Sleeping mode to save energy when not in use.
Wakes up when you do .
Automatically fills your favourite glass or mug at pre selected temperature of your choice

Maintenance:

- Filter Change every 6 months

PRICE: AED 2629.-

20inch Water Filter

Product Features:

- Ideal for restaurants, kitchens, ice machines, industrial coffee machines
- 3 stage Stainless Steel Water
- Purifier (PP+CTO+GAC)
- Dimension: 39cm * 11cm * 65cm

Maintenance:

- Filter Change every 6 months

SWISS
TECHNOLOGY 

PRICE: AED 2699.-

Under sink 5 stages

Product Features:

- Dimensions: 420mm x 120mm x 350mm
- Material: 304 stainless steel
- Pure water flow: 90L/H
- Filtration accuracy: 0.01 micron
- Applicable water temperature: 5 ~ 45 °C
- Working water pressure: 0.1 ~ 0.4MPa
- Scope of application: Municipal tap water

Maintenance:

- Filter Change every 6 months

Filtration Technology

5-stages of deep filtration with PP, CTO, SR, UF, T33 filters (Chlorine, taste and odor, Calcium, Copper, Iron, Metal ions, Magnesium, Mercury)

PRICE: AED 799.-

Under sink 2 in 1

Product Features:

- Dimensions: 130mm x 110mm x 345mm
- Filtering accuracy: 0.5 µm
- Effluent flow: 400L/H
- Work pressure: 0.1 ~ 0.4MPa
- Connector size: 3/8"
- Applicable temperature: 5 °C – 45 °C
- Applicable water quality: municipal tap water

Maintenance:

- Filter Change every 6 months

Filtration Technology

PP Cotton – preliminary filtration of rust and sediment. Activated carbon – Absorption of heterochromatic odor and residual chlorine. Chloroform, carbon tetroxide.

What are the benefits?

HASSLE FREE ACCESS TO PURE WATER

Drinking clean water straight from the tap without any worry.

BETTER TASTE

Our filters diligently clean the chlorine and sodium content in water, thus removing all odors and enduring better tasting water.

ZERO PET WASTE

You would no longer have to buy bottled water from shops or vendors, thus helping you reduce the usage of plastic.

REDUCE TRANSPORTATION HASSLES

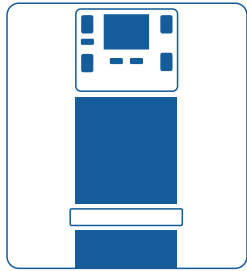

With clean water getting supplied to your home or office directly, you would no longer have to worry about bottled water being delivered on time.

REDUCE USAGE OF GAS AND ELECTRICITY

Our unique water filters will give you access to instant hot and cold water. So no need to reach out for the kettle every time you need hot water.

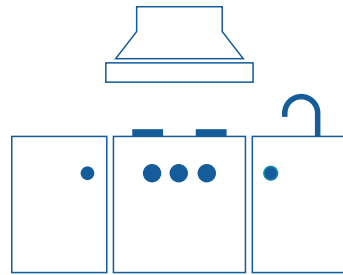

NO MORE HEALTH RISK

Drinking from plastic bottles or plastic gallons specially if already exposed to heat, may cause health issues according to experts. With Waterclub you can enjoy healthier water directly from the machine.

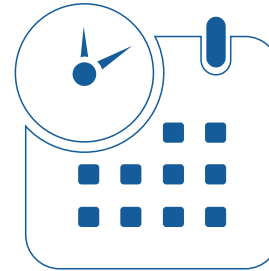

Choose your machine

You can Choose between our five water filter machines to see which one fits better to your needs.

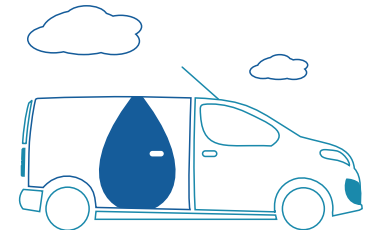

Pick your place

Prepare some place on your kitchen counter / office pantry before our technician arrive

Schedule

We will install your waterclub during your desired schedule

Installation

We will deliver, install and show you how it works.
ENJOY!
